

## English

This half term we will focus on story telling. The children will learn to create interesting sentences using a range of techniques such as adjectives and lists. Later they will innovate a familiar story to give it their own twist. Finally we will learn the skills to write a newspaper

## Maths

We will start the term with lots of work on Place Value; reading and writing numbers, ordering and partitioning. Later the children will

## RE

Our Big Q this half-term is 'Places of Worship'. We will visit Whitwick St John

## Spelling

This half term we will be concentrating

## RE

We will investigate different artists including Andy Warhol and the children will explore a

# My House, My Home Autumn Term One

## PE

Whilst making the most of the great weather the children will learn to play

## Geography

We will go on a walk around the local area using observational skills to identify the key human and physical features of the school grounds and the surrounding area.

## French

Continuing from what they learnt in year 1 the children will count to 20 and be able to say how old they are, days of the week, more colours and use simple phrases to say please and thank you. In addition to all of this they will gain insight into what school life is

## Science

In science the children will compare a range of materials and discuss the suitability for their purpose. Through investigation they will discover which materials you can twist, bend, stretch and squash into other shapes. This topic will include 'outdoor learning'.
