

English

This half term, our narrative and grammar-work will be based on the story— How Butterflies Came to Be. We will also focus on poetry and instructions, reading and writing. We will be developing our stamina for writing through opportunities for planning and writing in a range of different genres .

RE

For our Big Q day, we will ask ourselves, “ Who is Jewish and what do they believe?” . During RE reflection time, we will focus on Salvation in the lead up to Easter.

Science

In science we will be learning all about Mini-beasts. We will study the lifecycle of different mini-beasts, learn how to identify them and explore their natural habitats. Observe and describe how seeds and bulbs grow into mature plants. We will investigate and observe what conditions are best for plants to grow and stay healthy.

Spelling

Our focus this half term will be the suffixes-less and -tion, apostrophes for contractions and homophones. We will also continue to learn Common Exception Words.

Magnificent Mini-beasts! Spring 2—Year 2

ICT

The children will be programming ‘Bee Bots’ and ‘LightBots’ in their ICT learning.

Maths

We will start this term by learning about fractions. We will also work on measuring capacity and temperature. We will also measure length and mass. We will also focus on our 2, 5 and 10 x tables.

PE

This half term, we will continue to develop our gymnastics skills on different types of apparatus. We will also work on our Net/Wall skills especially badminton.

PSHE

Our focus this half-term will be linked with our whole school ‘Aspirations and Dreams’ Week.

DT

We will design and make our very own “mini-beast homes” using different materials and natural resources.
